Cape Girardeau

**EXECUTIVE DIRECTOR**  
BRENDA ROLING

February 1, 2010

Dear Colleague:

This year the Missouri Dietetic Association Annual Meeting will be held at the Frontenac Hilton Hotel, St. Louis MO on April 21-23, 2010. The program entitled "The Nutrition Kaleidoscope" will offer a variety of opportunities to assist members in efforts to improve their expertise, network and make professional connections.

We invite you and your students to be a part of this exciting meeting! Besides attending, professionals and students are encouraged to present their research via a poster session held in conjunction with the exhibit portion of the program. Poster presentations depict research content using charts, graphs, illustrations, and/or photographs. Posters allow for informal, one-on-one or small-group discussions with the presenter about the issue, problem, project or research addressed. For additional information on requirements for poster sessions, refer to the February 2004 issue of the American Dietetic Association.

This will be a one-day exhibit on Thursday, April 22, 2010. A set of general instructions for the poster session is enclosed. Posters must be set up by 7:30 a.m. on Thursday and taken down by 6:00 p.m. In order to present a poster, you must register for at least one day, Thursday, of the conference and fill out the enclosed registration form for each poster. Then, attach the abstract and return these forms to Brenda Roling by March 20, 2010. Please be advised that space is limited.

We look forward to working with you in making the MDA Annual Meeting a success.

Gratefully,  
MDA Annual Meeting Committee  
P.O. Box 1225, Jefferson City, MO 65102
